

Jerry Kane

Keynote speaker on AI and organizational capability

AI is a people problem disguised as a technology problem.

The companies winning with AI aren't the ones with the best tools. They're the ones who've built the human capability to use them. I help enterprise leaders close that gap.

SIGNATURE TALKS

The Technology Fallacy

Why digital and AI initiatives stall, and what separates the organizations that adapt from the ones that buy tools and wait. Built on research with 20,000+ executives.

AI Now

What has actually changed for leaders, what hasn't, and where the real constraint sits. A clear-eyed session for teams deciding how to commit.

BACKGROUND

Author of two MIT Press books, *The Technology Fallacy* (2019) and *The Transformation Myth* (2021), from a seven-year research partnership with MIT Sloan Management Review and Deloitte that surveyed more than 20,000 executives and interviewed 150+ leaders. C. Herman and Mary Virginia Terry Chair in Business Administration at the University of Georgia. Keynotes and executive sessions in more than 15 countries.
